# PRODUCTION TIMES & FREE FREIGHT TERMS

## Production Times

We offer our customers 7 types of production schedules:

A 15 day service, 10 day lanyard service, 7 day service, 3 day standard service, 3 day rush service and 5 or 10 week factory direct service. We also have a 24 hour rush service on over 400 of our products. Some items require additional production time. Please review each product description carefully for the individual production time. If you have different production demands, call your representative for a quote.

All production schedules are based on business days. Production time for all services begins after all approvals, which includes the receipt of a complete and accurate purchase order, receipt of print ready artwork, credit approval, paper proof approval, pre-production sample and/or anything holding up production. Credit terms should be arranged prior to sending a purchase order. Orders must be approved by 10am Eastern Standard Time for that day to be counted as a production day.

### 24 Hour Rush Service

24 hour rush is available on selected items bearing the 3 Day Standard/24 Hour Rush logo. 1 colour 1 position, maximum 500 units. Call your representative for details. Factory cannot use a 3rd party shipping account. All approvals must be received by 10am EST in order for us to despatch the next business day.

### 3 Day Rush Service

The 3 day rush production schedule with pricing is in red under the relevant item. The purchase order and emailed artwork must be clearly marked "3 day rush service". Paper proof and pre-production sample will delay the order as production time will begin after all approvals. Orders are limited to 1 or 2 colour logos. However, we may be able to rush logos with additional colours - call for a quote. All approvals must be received by 10am EST in order for that day to be included as a production day.

### 3 Day Service

The 3 day standard service is for up to 2,500 units and up to 2 print colours of items bearing the 3 day standard service logo. All approvals must be received by 10am EST in order for that day to be included as a production day.

### 7 Day Service

The 7 day production schedule is our standard service for some/larger orders of in stock items. All approvals must be received by 10am EST in order for that day to be included as a production day.

### 10 Day Lanyard Service

The 10 Day Lanyard Service is for up to 1,000 units. Please contact your representative for lead times on orders over 1,000 units.

### 15 Day Service

All products with a 15 day service are shipped from our China facility. There are no rush or expedited orders accepted on any product with a 15 day service. All approvals must be received by 10am EST in order for that day to be included as a production day.

### Factory Direct Service

10 week production time for orders that are typically 5,000 pieces or more. Factory direct orders are custom manufactured in Asia to the specifications on the purchase order and shipped into Australia by container ship. This is the most economical method of production allowing for significant cost reductions on larger orders. We can further customize any order by doing custom colours, special packaging, custom molds, multiple colour logos and many other options. Production time can be shortened on factory direct orders by air shipping some or all of the order. This typically saves 3-4 weeks, and is quoted on a case by case basis due to fluctuations in the cost of air freight. Our 5 week overseas production time is the same as above but shipping is through air freight. Please contact us for current pricing.

The factory reserves the right to change carriers to meet an in hands date on the purchase order and invoice customer accordingly for the shipping, even when it is requested to bill on a 3rd party account.

See Pages 174 for additional terms and conditions.

**All production schedules begin after all approvals.**

\*Free Freight applies to catalogue quantity orders only.

Excludes bottled water and offshore orders.

Free Freight applies to any one metro location in Australia via Road Service only.

The factory reserves the right to make changes to this program with or without notice.

## S-920 1.8 Litre Beer Growler

Made of food grade 18/8 stainless steel, this is a giant leap forward for craft beer lovers who've grown weary of hassling with traditional glass growlers. A passivated interior is meant to keep 1.8 litres of malty goodness or well-hopped heaven tasting just the way the brewer intended. An attached swing top offers long-lasting freshness and ensures you're giving your beer the tender loving care it deserves. This is an ideal gift any beer lover would appreciate. Keep the growler filled in your refrigerator to ensure a cold brew to when you want it. Hand wash only, do not freeze.

### T-997 RFID Credit Card Protector Sleeve

Protect your identity and credit from unwanted card readers with this aluminium mesh screen sleeve. Many new credit cards have radio frequency ID chips in them which can be accessed by a card reader, which is normally in a retail store. Pass your card in front of the reader instead of scanning making purchases more convenient, but a scanner in the wrong hands can read your card from as far away as 70 feet. Our RFID protector sleeve stops scanners and protects you.

**Colours:** Silver, Blue or Red  
**Size:** 91mm w x 63mm h  
**Imprint Area:** 60mm w x 40mm h  
**Carton Size:** 20 h x 33 w x 51 l cm

### T-999 RFID Aluminium Card Wallet

Protect your identity and credit from unwanted card readers with this aluminium and plastic case. Many new credit cards have radio frequency ID chips in them which can be accessed by retail store card readers. Passing your card in front of the reader instead of scanning makes purchases more convenient, but a scanner in the wrong hands can read your card from as far away as 70 feet. Our RFID protector wallet stops scanners and protects you.

## L-174 Fire-Bright 2-In-1 LED Flashlight / Lantern

The Fire-Bright is an LED flashlight and lantern all in one. The lightweight aluminium body and compact design allows for easy transport and storage. It puts out 70 lumens as a flashlight, while the frosted lantern diffuses a soft light that is easy on the eyes. Unscrew the Fire-Bright lense cap with an effortless twist of the aluminium casing to convert the powerful flashlight in to a gleaming lantern. Purpose built for hiking, camping or as an emergency light.

See page 163 for standard imprint and material colours. See Production Times for lead time on orders over 1,000 units. See pages 164 & 165 for a complete list of attachments & pricing. Recycled lanyards are made from recycled PET material. Lanyards are bulk packaged 10 pcs/bundle. Add \$0.05(G)/pc to individually polybag each lanyard.

## ONE COLOUR PRINTING

All lanyards come standard with one colour printing.

## MULTI COLOUR TIGHT REGISTRATION

We guarantee that all logos have tight registration and will not bleed. All logos are printed first with an invisible/clear under coat to stop the logo colours from bleeding. This process is more expensive, but your logo will be clean and sharp looking - guaranteed.

See each individual item for extra colour charges.

## PUFF INK

Puff ink is an ink that raises or puffs up during the drying process. Price is an additional \$0.13(G)/pc/colour.

## GLOW IN THE DARK INK

Add some extra spice to any event, especially night time events with Glow in the Dark Ink. There is only one colour which is an off white colour. Price is an additional \$0.25(G)/pc/side.

## REFLECTIVE BACKGROUND

Add a silver/grey background to any screen printed lanyard for an extra safety feature. The logos are then imprinted on top of the reflective ink background. This process reduces the height of the imprint area by about 3mm. Great for schools. Price is an additional \$0.45(G)/pc/side.

## LANYARD ORDER POLICY

Custom lanyards are manufactured to the specifications of each order. This allows us to change and mix features, such as multiple colour logos, change attachments, change the width, dye the materials to specific PMS colours or just about anything a customer wants. In addition to the attachments and lanyards shown in this catalogue, we have additional attachments and other custom lanyard options. Call a representative with your requirements and we will do our best to meet your needs.

## MINIMUM ORDER POLICY

- Less than minimum orders are accepted with a charge of \$60(G)/logo/order. Some restrictions apply and there are absolute minimums. See your representative for more information.
- Additional setup fees will be charged for any logo or copy changes from the original artwork.

## PRODUCTION TIME

Production time begins after all approvals, including credit, receipt of artwork and a digital proof approval. A digital proof is a digital photograph of a pre-production sample.

## RUSH ORDERS

Our screen printed lanyards can be rush ordered with a 10 business day production period after all approvals. Pricing is in red under each item where available. Production time begins after all approvals, including credit and receipt of artwork.

Pre-production samples and digital proofs are not available on 10 business day production orders. However, if a digital proof is requested, the 10 business day production time begins after approval.

## LANYARD PACKAGING

All custom lanyards are bulk packaged 10 per bundle. Optional individual polybagged lanyards are available for \$0.05(G)/pc. All packaging is approximate Carton Weight as different attachments have different Carton Weights.

## PRE-PRODUCTION SAMPLES

Pre-production samples can be made for any of our lanyards for a charge of \$60(G) plus the setup charge. Pre-production samples will add an extra 7-10 days to production and are not available on rush orders.

You can choose from our standard set of colours at no cost. For a custom PMS colour there is a charge of \$60(G)/colour. Please note: Colours in catalogue will appear slightly different from finished product. We cannot guarantee an exact PMS match due to material dye-lot variations. Colours based on the PANTONE colour system.

# TERMS & CONDITIONS

## Orders:

All purchase orders (PO's) must be in writing on customer's official PO form or company letterhead. The PO must include the customer's name, address, phone number, fax number, item number/name, quantity, unit price, item colour, imprint colour/colours, ship method, ship to address, ship date, in-hand date, promotional discounts and any other applicable information. If there is not a price on the Purchase Order, standard catalogue pricing will be used. All orders accepted under the minimum quantities posted on our catalogues and website will incur \$60(G) minimum surcharge, no exceptions.

## Changes to Orders:

Changes to the PO must be made in writing and must be approved by the factory prior to the changes becoming effective. Faxing a request without any confirmation by the factory will not be considered a valid change and customer will be billed for the original order. Customer is responsible for any and all incurred costs prior to change approval. If customer does not receive a confirmation of the change it may not have been received or approved.

## Order Cancellations:

Cancellation requests must be in writing. Some orders may not be cancellable, dependent on whether production or shipping has commenced. The customer is responsible for any incurred costs such as set ups, printing, proofs, artwork, packaging and any other expenses incurred by the factory. There will be a charge of 20% of the item cost with a \$60(G) minimum restocking charge for blank items plus all freight costs.

## Rush Orders:

Refer to our production times for our range of rush services. From time to time, the factory may need to switch carriers in order to ship on time. Production time starts after all approvals have been received by factory, including credit, print ready art, paper proofs and pre-production proofs.

## Repeat Orders:

Repeat set up charges are \$35(G)/colour for all in stock orders with identical art as the previous order. Overseas orders may have higher repeat set up charges-check with your customer service representative prior to placing an order. Repeat set up charges are free from any other supplier. Simply show that an order has been produced previously and we will waive the set up charges for that order. Artwork will be kept on file for 24 months. Orders after 24 months will be treated as a new order.

## Merchandise Programs:

Merchandise and catalogue programs are always welcome, please contact customer service for details. All requests must be in writing.

## Credit:

Terms should be arranged prior to submitting an order. Depending upon the credit worthiness, credit terms may or may not be extended. Contact the Accounts department for details. Generally, terms will be considered after 3 transactions. Customers who do not maintain timely payments may risk being removed from Rewards programs and access to our specials and discounts.

## Returns:

A request for a return for credit or refund must be in writing, state the specific reason for the return and submit it within 14 calendar days of the invoice. Refusing, abandoning or sending back a shipment without approval does not constitute an approval by factory. When approved, returned products must be in the same condition as when they left the factory and the return will only be for the quantity returned. Contact a customer service representative for a return authorisation form. See order cancellations for applicable fees.

## Prices:

Due to currency and materials fluctuations, prices are subject to change without notice. We are not responsible for incorrect pricing, production times and, or descriptions found on 3rd party databases, websites, flyers or catalogues (i.e. APPA or Promodirect). Prices in this 2016-17 catalogue supersede all previous publications, including the 2015-16 catalogue.

## Sales Tax:

In accordance with Australian Goods & Services Tax laws goods shipped in Australia will be charged GST. Please contact our Accounts department prior to ordering for instructions on how you may qualify for an exemption from the tax.

## Inventory Availability:

Inventory stock is on a first come first serve basis. Prior to submitting a PO, always call to check available inventory or visit our website for Inventory numbers. Inventory cannot be placed on hold without a written purchase order.

## Artwork Charges:

An additional fee of \$80(G) per hour will be applied for artwork changes, such as recreations, clean up and redraws. The first 2 proofs are free and then \$25(G) thereafter. Requests for paper/fax proofs are subject to a \$13(G) fee.

## Shipping:

Excluding orders that are eligible for Free Freight, the customer is responsible for all shipping charges FOB Melbourne, Australia. Shipping instructions, shipping method, delivery address and delivery date must be included on the Purchase Order. Changes to shipping instructions must be in writing, approved by factory and submitted at least 72 hours prior to ship date as factory may ship early. Factory will not be responsible for delays or additional charges for any unapproved changes. Factory may ship orders out up to 3 days prior to customer's ship date without notification to customer. Orders are not insured unless requested on the Purchase Order or in writing. All orders become the customer's property upon factory's delivery to carrier as shipments are FOB Melbourne (this includes orders that are shipped out as part of our Free Freight program). Customers should file claims with carrier for any delayed, lost or damaged shipments. The factory will be happy to assist with this process, but the customer must initiate this process within 14 days of the shipment. Delays caused by a carrier are not the responsibility of the factory and no refunds, credits or returns will be given to customer due to carrier issues.

## Special Packaging and Fulfillment:

Factory has a full service fulfillment facility. Call for quotes on all special packaging and fulfillment services. There will be a \$22(G) per pallet charge for palletizing.

## Carriers:

The Factory reserves the right to ship via the carrier of their choice, at customer's expense in order to meet the customer's in hands date. To ship via Australia Post Service or any other carrier will require an additional 2 business days and a fee of \$32(G)/per order.

## Billing to Customer or Third Party Account:

Upon request, factory will attempt to bill shipping to a customer's account. If customer refuses the charges, the carrier will typically bill back the charges to the factory. In this case, factory will invoice customer for the shipping charges plus a \$32(G) service charge. If customer's account is invalid, incorrect or factory fails to use customer's account for any reason, factory will ship on factory's account and invoice customer for the shipping charges. Customer will be obligated to pay these shipping charges. Any order not shipped on factory's account will be charged \$2.50(G)/box, up to a \$12.50(G) maximum charge for handling.

## Split Shipments:

For split shipments to more than three locations, a split shipment charge of \$6.50(G)/per location will apply for additional locations. Additional charges may apply for some split shipments, please call customer service for details.

## Miscellaneous Shipping Information:

If a delivery address is not included on the PO, the factory will hold shipment of the order for up to three days before shipping via ground carrier directly to the customer's address on file. The customer is responsible for any additional freight charges caused by address changes, residential service, re-routed packages, returned packages and/or other adjustments made by the carriers. These additional freight charges will be invoiced to the customer in a supplemental invoice 15-60 days after the shipment. Carton weights are calculated by volume - not nett weight.

## Overruns and Under Runs:

The factory reserves the right to over ship or under ship up to 5% and invoice accordingly. For exact quantity shipments, add an exact quantity fee of \$32(G).

## Catalogue Photography:

The artwork, designs and trademarks imprinted on the products displayed herein are reproduced only as examples of the type and quality of decorated products available. They are not intended to represent that the products are either endorsed by, or produced for the owners of the artwork, design or trademark. Any unauthorised use of images or any material in the 2016-2017 catalogue without prior written consent is prohibited. Products shown in this catalogue may vary slightly from actual products due to inherent limitations in photography, film separations and printing.

## Sample Request Information:

Samples are provided free of charge and free of freight, for a reasonable quantity, as determined by customer service. Sample kits are also available upon request. Pre-production samples are available for up to \$162.50 (G) with clients' artwork on it.

## HCLA Supplier Conduct:

HCLA and its manufacturers shall comply with all applicable national, state, provincial and local laws and regulations, industry standards, UN Conventions, and any other requirements that pertain to product safety, employment practices and product manufacturing.

## SOCIAL COMPLIANCE

HCLA requires strict compliance with this commonly accepted Code of Conduct from all of our suppliers, manufacturers, subcontractors and other production facilities. HCLA believes that by insisting on compliance, it will allow us to offer safe products, produced in a safe environment, while complying with all applicable national, local and international laws and regulations. To do this, they must ensure compliance with the following:

### Child Labour

HCLA is committed to conducting all of our business activities with integrity, social responsibility and in compliance with all legal and ethical standards of each of the countries we conduct business in.

All employees must meet the country's minimum age requirement to act as labour.

All factories that conduct business with HCLA must maintain official records that verify the employee's date of birth and date of employment. This documentation must be available for inspection at any time.

HCLA absolutely forbids the use of child labour as defined by ILO and United Nations Conventions or by the national law of the country where the work is being performed.

### Forced Labour

HCLA prohibits the use of prison or forced labour in the manufacturing of our products. This policy extends to all other third party suppliers or subcontractors that are involved in the manufacturing of HCLA products.

### Wages, Hours and Benefits

Our manufacturers and their associated suppliers must comply with all laws regulating wages, working hours, overtime and employee benefits for the particular country in which they are located.

All workers must be paid at least the national minimum wage.

### Prohibition of Discriminatory Practices

Workers will not experience discrimination in hiring, remuneration, access to training, promotion, termination or retirement based on gender, age, religion, race, social background, disability, ethnic and national origin, political affiliation, sexual orientation, or any other personal characteristics.

### Health and Safety

The workplace must be a safe and healthy environment based on the recognized international standards, local laws and regulations.

The factory and all work areas must be well lighted and ventilated.

The workplace must have sufficient operational and inspected fire extinguishers, and people trained to operate them. The workplace must also have functioning fire alarms. All work areas must have clearly marked exits. These exits must remain unlocked and accessible during all working hours.

All doors, aisles, exits, stairwells and traffic areas are to be kept clear and accessible for easy evacuation.

All equipment must be maintained in good operating condition and up to code.

All factories must provide a well-stocked first-aid kit in each work area.

### Environment Issues

All factories must abide by all local and national environmental laws.

The factory must have in place policies and procedures for waste management, handling and disposal of chemicals and other dangerous materials. All emissions and effluent treatments must meet or exceed minimum legal and regulatory requirements.

HCLA insists our vendors and their associated suppliers share our commitment to a clean and safe environment.

HCLA reserves the right to either conduct its own inspections or have an appointed third party organisation conduct inspections of HCLA supplier's factories, workplace environments, employment practices, records, and facilities at any time to ensure they are operating at a level meeting or exceeding HCLA's high standards.

## ARTWORK SPECIFICATIONS

### LEGENDARY RANGE

Digital artwork to be supplied in MAC or PC-formatted EPS files created in Adobe Illustrator (version CS6 or lower) or a high resolution PDF with bleed.

- Create your artwork to the specific size of the product with one design per file/page of pdf
- Allow at least 3mm bleed all around and keep important elements 3mm inside cut area
- Ensure that all text/fonts have been created to outlines/curves to avoid font problems
- Colour up any logos etc. that require colour matching to the relevant pantone colour, using the "Solid Coated" set of swatches. Artwork coloured up to CMYK will not be pms matched
- Digital printing cannot print metallic colours, contact your representative for advice
- When saving pdfs, ensure that pdf settings are of a high resolution and allow for 3mm bleed all around
- Any placed images should be embedded in the eps files and to be high resolution (300dpi)
- Do not have any white areas set to overprint - the 4 colour process will omit any elements set to overprint white
- Be aware that any other elements set to overprint may not appear the same colour as viewed on the PDF proof when printed
- We can accept jpegs for Legendary Range as long as they are high resolution (300dpi) and to the correct size of the product with relevant bleeds etc. No specific colour matching will be available if a jpeg is provided
- Some manufactured products have multiple forme cut areas which need to have a 'bleed' assigned to them (templates are available)

### MIMAKI

Digital artwork to be supplied in MAC or PC-formatted EPS files created in Adobe Illustrator (version CS6 or lower) or a high resolution PDF. To avoid font issues ensure that all text is created to outlines. Alternatively we can print from a high resolution jpeg. Imprint areas may be restricted for this process, please consult your representative.

### VARIABLE DATA

Variable data to be supplied in Microsoft Excel spreadsheet, 1 row per variation. The longest name/entry will dictate the font size to be used. Barcodes can be generated in sequential numerical order. For production tracking purposes each printed item may have a reference code on the artwork ie. "Ref.001". Please contact to your representative for any further information.

### SCREEN PRINTED, ROTARY (WRAP PRINT), LASER ENGRAVED OR PAD PRINTED JOBS

Digital artwork to be supplied in MAC or PC-formatted EPS files created in Adobe Illustrator (version CS6 or lower) or a high resolution PDF.

- Where possible supply artwork to the imprint area allocated to that particular product
- Ensure that all text/fonts have been created to outlines/curves to avoid font problems
- Colour up artwork to the pantone colours to be printed (Solid Coated swatches)
- Logos for laser engraving to be supplied as solid Black (this will be the 'engrave')
- We cannot use placed images or jpegs - all artwork must be fully editable vector graphic
- Gradients and percentages of colour cannot be engraved or pad printed
- Where logos have percentages of a colour - a solid pms colour must be assigned to each percentage

### ARTWORK APPROVALS

It is of the utmost importance to approve paper and product proofs as soon as possible in order to meet delivery dates. If approvals are delayed, rush charges and/or expedited freight may be required at the customer's expense to meet a specified delivery date. Requests for paper proofs must be in writing on the PO or factory will produce the order per artwork sent using standard guidelines. Paper proofs must be approved within 24 hours of receipt in order to hold production schedule and inventory, except for rush orders. All orders requiring typesetting require a paper proof.

### TIPS

- Consider how the artwork will appear on the required product ie. square logos can be very small when reduced to fit on pens
- Avoid having very complex logos at small imprint sizes - the smaller the logo the higher the chance the detail will fill in/be lost
- Avoid having important artwork close to the trim/finish edge of products
- Some Legendary products have multiple forme cut areas which need to have a 'bleed' assigned to them (templates are available)

### MEDIA

We can accept artwork via email (7mb maximum), CD, DVD, File Management Website, FTP site or IDisk. Please identify with your company name, job name and order number.

### CONDITIONS

Our competitive pricing and lead times are made possible by accepting print ready finished artwork. We reserve the right to charge artwork set up costs at a minimum of \$100(G)/hour for any artwork changes necessary to achieve print ready files or artwork changes requested by our clients. Artwork changes will consequently affect production and delivery schedules. Two art proofs are provided without charge, additional proofs \$25(G) each.
